WELCOME MESSAGE OF PRESIDENT'S FEDERATION

I have the pleasure to invite you to the event called "**CMAS Open Water Finswimming World Championship**", which will take place in Viverone (Biella), from 12 to 17 September 2022. The fact that the CMAS awarded this event to FIPSAS filled me special joy, because I believe that open water Finswimming is an exciting and fascinating event that deserves greater attention, including from the media, considering its undoubted potential. I hope that Italy's organisational skills will help raise the interest in this sport, whose popularity is still expanding. I am particularly pleased, therefore, to extend a warm welcome to the foreign delegations and to all the athletes taking part in this event, hoping they will experience days full of enthusiasm against a positive competitive backdrop. We will have the opportunity to enjoy a spectacular sports event. Indeed, given the obvious technical skills of

many of the competitors, I am most confident that we will be able to witness top competitive level performances. Finally, I wish to acknowledge and thank the "Underwater Activities International Events" Organising Committee chaired by Carlo Allegrini, the FIPSAS Piedmont Regional Committee, the local authorities and all those who will participate in this long-awaited event, including officials, coaches and athletes, who, I am sure, will do their best to ensure that this edition will prove most successful.

I wish the best of luck to all the ATHLETES: *may the best win!*

FIPSAS President
Prof. Ugo Claudio Matteoli

PLACE OF COMPETITION

Lake Viverone is the third largest lake in Piedmont. Located between the extreme north-eastern part of Canavese (eastern Eporediese) and the extreme southern part of Biella, it takes its name from the homonymous municipality to which it belongs. It is located in the south-eastern part of the morainic Serra of Ivrea and stands 230 metres above sea level. It is fed by underground waters and by some small tributaries. Its surface spanning 5.72 square km makes it the third largest lake in Piedmont; it reaches a maximum depth of 50 metres, while its length measures 3.470 metres, with a maximum width of 2.550 metres. Its total perimeter spans 13.06 km, though it is not totally accessible; the south-western part is interrupted, as it is very wild, rich in vegetation and lowland woods. The northern and eastern part, however, is more urbanised, with a greater presence of structures and businesses related to tourism (bars, ice cream shops, hotels, camping sites, beaches). This is the area where the base of the whole event will be located.
